

Rely on it.

AMERICAN RENOLIT CORPORATION

May 12, 2016

To Whom it May Concern:

American Renolit Corporation has been using the services of La Porte Occupational Health for many years, and they have been a great resource for us. Dr. Sayers and the rest of the team have been wonderful to work with. They are familiar with our needs, and understand the ins and outs of OSHA as well as Worker's Compensation. We have had several tricky cases that they have been able to resolve for us with a positive outcome. It is also nice to know that they have physical therapy in the clinic so that the therapist and the doctor can consult on the progress of the patient in real time. In addition to work-related injury care, we also used La Porte Occupational Health for our pre-employment physicals. Their staff is very professional and provide results to us in a timely manner.

We view La Porte Occupational Health as a partner in our efforts to maintain a safe, healthy and productive workforce and it has been a pleasure working with them.

Kind Regards,

Melissa M. Gruber, SPHR, SHRM-SCP
