

# Northwest Health Occupational Medicine After Hour Care

**Northwest Health** works closely with the urgent cares and emergency rooms for the Occupational Medical systems; and in many cases they are familiar with your company and your protocols. If one of those facilities is convenient, we encourage you to use them for your after hour injury care. To facilitate care, supervisors should complete/send a Treatment Authorization form with the injured employee. All follow-up care can be provided at one of our convenient clinics.
